

CURIA PEREZ

Espagne

1969

FR

Né à Madrid, Espagne, en 1969.

L'élégance naturelle des hommes de cultures non européennes ont toujours été une source d'inspiration pour les artistes du continent.

Jesús Curiá Perez nourrit une passion pour les cultures africaines et asiatiques. Toutes les races sont appelées à évoluer progressivement vers une vision mondiale et finalement vers une population mondiale. Cet idéal est un des ressorts fondamentaux de son œuvre.

Ses sculptures combinent des éléments figuratifs (tête et mains) avec des corps façonnés de façon abstraite. Il attire l'attention du spectateur sur des éléments spécifiques de ses sculptures, en préservant l'identité de l'ensemble.

EN

Born in Madrid, Spain, in 1969.

The natural elegance of men from non-European cultures has always been a source of inspiration for the artists of the continent.

In his work, Jesús Curiá Perez shows a great passion for African and Asian cultures. Peoples from all over the world are called upon to move, step by step, towards a global vision, ultimately forming a unique universal population. This ideal is the main motif behind the artist's work.

His sculptures combine figurative elements (head and hands) with bodies displayed in abstract positions. The viewer's attention is triggered by individual elements that characterize each sculpture, however preserving a vision of unity.
